REPORT OF SUPERINTENDENT OF SCHOOLS

The school year 1950-51 has been one with a record of successes and disappointments for those concerned with the schools of Chesterfield. The successes have been momentous; the sale of $77,000 worth of school bonds, the excellent water supply obtained at the new school site, the purchase of a large playground area and the start on the construction of the new building. The disappointments have largely been centered around the slow progress on the new building due to the critical shortage of steel brought about by the Korean situation and the rearmament program.

Chesterfield does find the new school delayed but is fortunate indeed that the adjourned meeting of 1950, authorized the construction and enabled the school board and building committee to obtain a bid within the funds available. A delay of only a few weeks in obtaining bids would have resulted in an increase of costs beyond the funds voted and the probable loss of the entire project for some years to come. It was also possible in June to place orders for school equipment such as desks, chairs, lunchroom tables, steel folding chairs, a refrigerator, kitchen equipment and playground equipment at a saving of from 10% to 20%. Despite the fact that the orders were placed in June, it was not until January 1951, that the electric fixtures were delivered. With all the difficulties however, success is in sight, and before the close of the school year, classes will be in session in the new building.

This is a period of transition, change and reorganization of the school program in Chesterfield. It is a time when constructive criticism, patience and forbearance will help in the establishment of an educational program in Chesterfield which will be the pride of the community and the joy of the children.

CHARLES L. BOWLBY,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

Health inspection showed the following defects:

Pupils in grade 1 to 5 inclusive were examined by Dr. Cramb in May 1950.

59 pupils were examined
9 pupils showed slight heart murmurs
25 pupils showed need of dental care
7 pupils were advised to have their family physician examine their nose and throat conditions.

In September 1950, pupils in grades 5 through 8 were examined by Dr. Cramb.

101 pupils were examined
8 showed slight heart murmurs
56 were in need of dental care
11 were advised to have nose and throat examination, by their family physicians

All pupils were given special hearing and vision tests during the school year.

7 pupils with eye defects had these corrected
23 pupils had dental care
2 pupils had tonsil and adenoid operations.

In May 1950, a tuberculosis patch test clinic was held.

128 pupils were tested
2 pupils reacted
3 pupils were X-rayed

During April 1950, the Federal Dental team gave fluorine treatments to 136 children. These treatments consisted of a complete cleaning of the teeth and three applications of sodium floride. The P. T. A. provided transportation to the clinic which was held in Marlboro.

REPORT OF THE MUSIC SUPERVISOR

I herein submit my report concerning the elementary music in the schools.

The chief aim of the music program is to develop love and appreciation of good music and the desire to participate spontaneously in group work, both vocal and instrumental. A comprehensive course is offered, starting with the first grade and carrying through the eighth grade which deals with all fundamentals as well as with expression in ensemble work, tone production and rhythmic forms.

There is no lack of enthusiasm in my work with the pupil groups and this enthusiasm should carry through to community activities in the later life of the pupil.

Respectfully submitted,
AZALEA G. WILSON,
Elementary Music Supervisor.
